

MOTHERS OF MAYHEM

BIO

This rock quartet hailing from northern Utah in the Ogden valley, know what it's like to light up a crowd, playing festivals and fairs in multiple states around the west. Playing a mix of originals and covers, audiences walk away with huge smiles on their faces, not only amazed by these four women's amazing talent but also their ability to draw and keep a crowd dancing and singing along. When you have classically and formally trained musicians, playing hits that rock fans will love, combine with an eccentric mix of their own fun, fast originals, there's no wonder they're in high demand for large audience festivals around the West. They're selective in what shows they book for the year, so snatch them up early.
